

Press Release – For Immediate Release

15 May 2019

Panam Sailing is pleased to announce that the overall distribution of country spots to all 11 of the sailing events in the 2019 Pan Am Games has been finalized as of today, 15 May 2019.

Sailing has experienced an overall 20% growth in participating countries from Toronto 2015. A record breaking 26 nations will be sending 168 athletes and 120 boats to compete in the 11 events at the Lima 2019 Games.

With the added attraction of TOKYO 2020 Country Qualifications being offered in 5 events - the Men's and Women's Dinghy, the Men's and Women's Skiff and the Mixed Multihull events - as well as the first-ever participation of Open Kiteboarding, we expect a great regatta in Paracas, Peru, in August.

The first table identifies Events and Equipment and the numbers of boats and athletes.

Event	Equipment	# of Boats	# Athletes
Men's Windsurfing	RS:X	8	8
Women's Windsurfing	RS:X	8	8
